IN THE WINERY:

Grapes were hand harvested and then foot trodden for a 24-hour cold soak before pressing. This wine was fermented in a climate controlled stainless-steel tank. Temperatures were kept cooler to preserve the aromatics of Riesling. Fermentation was halted early to create a richer, medium-dry style of Riesling

Titratable Acidity: 6.68 g/L

IN THE GLASS:

Delicate floral aromatics complement notes of red delicious apples, and candies peaches. The limestone soils bring acidity to the wine that balances out this slightly medium-dry style while still retaining that distinctive Niagara Riesling palate.
